Job Preference: Full-time | Software Engineer | [Portfolio](#)

Location Preference: Open to relocate across Dubai, Sharjah, and Abu Dhabi

Summary : Frontend-Focused Full Stack Developer with 3 years of experience delivering responsive, high-performance eCommerce websites using Shopify, Magento, ReactJS, and Next.js. Skilled in building scalable UI components, integrating RESTful/GraphQL APIs, and optimizing site performance (boosting page speed scores by 20%+). Recognized at MACHathon 2024 for contributing to an award-winning AI product recommender. Adept at cross-functional collaboration, mobile-first design, and implementing headless commerce using Shopify Hydrogen.

Key Skills:

Frontend: HTML5, CSS3, JavaScript, ReactJS, Tailwind CSS, Bootstrap, jQuery, NextJS, Typescript

Platforms: Shopify, Magento 2, Shopify Hydrogen, WordPress, Webflow, WooCommerce

Backend: Node.js, Express.js, MongoDB, PHP

Tools: GitHub, Bitbucket, Jira, Zoho, Docker, Google Analytics, Hotjar, SearchConsole.

Practices: Cross-browser compatibility, Performance optimization, Mobile-first / responsive design, API integration, Agile & SDLC methodologies, Debugging & troubleshooting

WORK EXPERIENCE

Terrific Minds, Infopark Kochi, Kerala, India

June 2023 – March 2025

Software Engineer

- Developed and delivered multiple eCommerce solutions using modern web technologies and industry-standard platforms
- Customized and optimized platform themes to enhance user experience and improve site performance metrics significantly
- Participated in collaborative development initiatives focused on enhancing product discovery and user personalization
- Implemented third-party integrations and custom functionality to optimize user engagement and site conversion
- Worked closely with cross-functional teams to translate business requirements into technical solutions
- Ensured code quality through industry best practices, modular architecture, and systematic debugging approaches
- Designed and integrated RESTful APIs for handling dynamic content, user authentication, and secure payment processing

DCKAP, Chennai, TamilNadu, India

July 2022 – January 2023

Software Engineer

- Built dynamic ReactJS/Next.js interfaces by converting Figma mockups into responsive, mobile-first pages, improving design consistency.
- Revamped legacy websites by migrating to Tailwind CSS, reducing CSS code by 30% and improving maintainability.

- Developed key B2B features for BigCommerce projects, including Quote pages, Checkout flows, and Product Listings, boosting usability for distributors.
- Integrated APIs with Fastify.js, MongoDB, and Mongoose, ensuring smooth backend communication.
- Implemented secure authentication (JWT, OAuth) and scalable API endpoints (REST/GraphQL) for client platforms.
- Collaborated with UX/UI teams to deliver pixel-perfect UI while aligning with business goals.

EDUCATION

Government Engineering College, Thrissur

2018-2022

B.Tech in Production Engineering

Languages & Soft Skills

- Languages: English, Malayalam, Hindi
